

# R 277-500 New Board Rule - Effective 7/1/12

DRAFT

Credit	USOE Credit	College Credit	Re-licensure points
	15 hours = 1 credit	18 hours = 1 credit	1 hour = 1 re-licensure point
	7.5 hours = 0.5 credits	9 hours = .5 credits	

USOE Credit- This credit meets the professional development standards set forth by the Utah State Office of Education. Some districts will count USOE credit for a salary lane change. This credit can also be used for re-licensure points. The credit will be awarded to the OnTrack transcript by the facilitator of the course. The credit must be posted on the OnTrack transcript.

Re-licensure Points- This credit does not meet the Utah State Office of Education professional development standards to receive USOE credit. This credit is still valid for license renewal. The facilitator of the course would need to create the course in OnTrack for the credit to be posted on the OnTrack transcript. This credit can be posted on OnTrack, but it not required.

Higher Ed Credit- This credit is posted on an accredited university transcript. This credit can be used for district lane change credit, re-licensure points, and higher education credit. The credit does not have to be posted on OnTrack, but the facilitator of the course may choose to do so.

District Credit- This credit is a district option and the individual districts have their own guidelines.
